

In one sentence

FELÚT+ tests whether a trusted community voice — one of Hungary's most recognised Roma artists — can bring hard-to-reach Roma NEETs through the door of employment services that have failed to reach them for years, and then move them along a structured pathway into work, education or training.

The problem we address

Across Hungary, Slovakia and Romania, Roma young people are dramatically over-represented among NEETs. Activation programmes exist — but a large share of the target group never enters them. The barrier is rarely a lack of information; it is **a lack of trust in institutions**, reinforced by years of exclusion and by outreach channels (leaflets, job-centre letters, school announcements) that this group has learned to ignore. Conventional outreach spends money reaching people who are already reachable.

Our proposition: trust as outreach infrastructure

L.L. Junior is a Roma-born Hungarian artist, founding member of the pioneering Roma hip-hop group Fekete Vonat, with 25+ years at the top of the Hungarian music scene, ~500,000 YouTube subscribers and 600M+ cumulative views. He grew up in the same circumstances as the target group and speaks their language — literally and culturally. Crucially, **his audience extends across the borders**: Hungarian-speaking Roma communities in southern Slovakia (Gemer), the Romanian Partium and beyond share the same language and cultural references.

FELÚT+ turns this reach into an activation instrument:

1. **20 roadshow events** across three countries (HU 10, SK 5, RO 5) — music, plus the ambassador telling his own story: where he started, where he got to, and what nearly stopped him (drugs, usury, dropping out of school).
2. **The FELÚT desk on site.** A Roma case manager, a public employment service officer and a local education partner register interested young people *at the event itself*. No follow-up letter, no waiting period — the moment of motivation becomes an enrolment.
3. **An individual pathway** follows: assessment → Roma mentor → skills development (including a financial self-defence module against predatory lending) → job placement with employer partners → 6-month follow-up.
4. **A prevention track** for 14–18 year-olds still in school, linked to local after-school programmes, to stop the next cohort from becoming NEETs.

What makes it innovative

- **A measurable model of celebrity-led outreach.** Community icons are routinely used for awareness campaigns; they are almost never integrated into a service pathway with measured conversion. FELÚT+ measures exactly that: how many attendees convert to enrolment, training, and employment.
- **Zero-latency conversion.** The gap between raised interest and actual enrolment is where most campaigns lose their audience. We remove the gap.
- **A cross-border natural experiment.** Hungarian-speaking Roma communities in three countries share language and culture but live under three different policy regimes. Running the same intervention across all three produces directly comparable evidence on what is method-driven and what is system-driven — rare and policy-relevant knowledge.

Scale and targets (24 months)

Indicator	Target
Outreach events	20 (HU 10, SK 5, RO 5)
Young people reached directly	8,000
Online reach via ambassador channels	5M+ views
NEETs (18–29) entering individual pathways	1,000
Completing skills development	500
Entering employment, education or training	300 (30% of entrants)
Still employed after 6 months	210
Pupils reached in prevention track (14–18)	700
Employers engaged	70
Transferable model toolkit	1, in 4 languages

Indicative budget

Total project cost **EUR 2,000,000** · EU grant requested (80%) **EUR 1,600,000** · Co-funding (20%) **EUR 400,000**

Work package	EUR	%
WP1 — Management and coordination	160,000	8.0
WP2 — Outreach events (production, venues, travel)	130,000	6.5
WP2 — Ambassador services package	290,000	14.5
WP3 — Mentoring and case management (8 FTE Roma case managers)	480,000	24.0
WP4 — Skills development and mobility support	360,000	18.0
WP5 — Employment and placement	230,000	11.5
WP6 — Prevention track (school retention)	150,000	7.5
WP7 — Monitoring, evaluation and dissemination	200,000	10.0

61% of the budget goes to direct service delivery to the target group (WP3–WP6): mentors, training, job placement and school retention.

On the co-financing

We are transparent about this from the outset: Aurapro Kft. is a small company without the balance sheet to carry co-financing on a project of this size. Our contribution to the consortium is substantive rather than financial — the concept and methodology, the ambassador's engagement and cross-border reach, event production and video capacity, and the venue network with its local co-hosts. **We are therefore looking for a coordinator able to carry the 20% co-financing requirement**, whether through in-kind staff contributions, existing operating grants, or other sources.

The ambassador services package

The ambassador line is a **contracted service package with defined deliverables**, not an appearance fee:

Deliverable	Volume
Live appearances (music block + motivational session)	20
Professionally produced video summaries of the events	20
Distribution on the ambassador's own channels (~500,000 subscribers)	20 releases
Campaign face: image and name rights across all project communication	24 months
Press and broadcast appearances as project spokesperson	min. 8
Participation in opening and closing conferences	2

Valued at advertising rates, the projected 5M+ views alone approach the value of this budget line.

Consortium we are building

Per the call conditions, the coordinator must be an EU-level network or a national-level Roma non-profit organisation whose primary mission is Roma rights and policy engagement, and the consortium must include at least one public employment service or authority.

Role	Country	Status
Coordinator	EU / HU	We are seeking a partner for this role
Education and prevention lead	HU	in discussion
National implementation partner	SK	to be confirmed
National implementation partner	RO	to be confirmed
Public employment service	HU / SK / RO	to be confirmed
Events, production, communication	HU	Aurapro Kft. (project originator)
Ambassador	HU	L.L. Junior (contracted service provider)

What we bring to the table

- A fully developed programme concept, methodology and event format
- The ambassador's commitment and his cross-border reach
- Event production, video documentation and communication capacity
- A mapped venue network across Hungary, Slovakia and Romania — cultural centres and community houses in Roma communities, with local co-hosts
- A domestic pilot (12 events) planned from national funding, which can serve as documented proof of concept

What we are looking for

A **coordinator** eligible under the call conditions **and able to carry the 20% co-financing**, plus national partners in Slovakia and Romania. We are open to adapting the design to the coordinator's priorities — the model, not the ownership, is what matters to us.

If carrying the full co-financing is not feasible at this project volume, we would rather know at the outset than at the drafting stage. The design scales down: the call's lower grant threshold is EUR 800,000, where the co-financing requirement falls to EUR 200,000. We are willing to discuss a smaller first edition on that basis.

If the timeline for the 2026 deadline proves too tight for consortium building, we are equally prepared to target the next round, using the domestic pilot in the meantime to generate documented evidence of the model's conversion rates.
